EXPERIENCE

LOCKHEED MARTIN

Cyber / Information Assurance Intern

Moorestown, NJ

May 2018 – Present

- Delivered efficiently and consistently, with a secret security clearance, for the Aegis Combat System
- Implemented an automated certificate management system using a public key infrastructure
- Revamped key features and abilities of the file integrity, removable media detection, and antimalware applications
- Conducted detailed requirements analyses to effectively plan out and delegate tasks
- Collaborated and excelled in a Scrum work environment with a team consisting of over forty engineers

STEVENS INSTITUTE OF TECHNOLOGY

Course Assistant – Introduction to Web Programming and Development / Data Structures

Hoboken, NJ

August 2017 – Present

- Mastered the class material to help students in the class understand critical class concepts
- Revamped the curriculum by designing new, challenging coding assignments
- Collaborated with other course assistants to resolve class issues and ensure fairness
- Educated and reinforced class material via my own recitation class

SMARTER SPACES, SMARTER CAMPUS

Lead Research Assistant

Hoboken, NJ

June 2017 – August 2017

- Pioneered an effective plan and delegated tasks to teammates
- Coordinated the creation of an automated and comprehensive sensor suite for environmental data collection
- Utilized data visualization tools to analyze and make conclusions about the data collected
- Co-authored a research paper accepted for oral presentation at IEEE UEMCON 2017

LEADERSHIP EXPERIENCE

STEVENS COMPUTER SCIENCE CLUB

Treasurer

Hoboken, NJ

January 2017 – Present

- Devised a detailed budget for each academic semester
- Centralized and organized all club expenses to drive event planning and management
- Negotiated the allocation of approximately \$400 in increased funding to the club's budget for additional events
- Collaborated with members of the executive board to meet and accomplish all club goals

ADDITIONAL INFORMATION

INTERESTS: Data Analytics, Cybersecurity, Artificial Intelligence, Machine Learning, Hackathons, Financial Markets

CLUBS: Stevens Computer Science Club, Society of Asian Scientists and Engineers, Chinese Student Association

OUTSIDE INVOLVEMENT: Juvenile Conference Committee Volunteer, MainStreet Hammonton Volunteer
